

US National Combustion Meeting

Travel Support

The Eastern States Section will provide travel support to student presenters at this year's US National Combustion Meeting in Park City, UT. We anticipate making awards of up to \$250 to ESS/CI student presenters of accepted papers at the National Meeting (1 honorarium per student, 1 per paper). The presenter must be an author of an accepted paper (not a work-in-progress poster) and must be a current degree candidate at a college or university in the Eastern States Section at the time of the National Meeting. The student's advisor is strongly encouraged to also attend the National Meeting. Please note that the size of the individual award may be adjusted depending on the number of applications within our allocated budget.

Please send the following information to Prof. Yiguang Ju (yju@princeton.edu) by May 1, 2013 so we can assemble our final budget.

Paper number:

Student presenter's name:

Degree and expected completion date:

Advisor's name:

Institution:

Note this travel support is in addition to that provided from the National Meeting directly.

Interested students should also complete the Student Travel Support form at:
