

As has been the tradition, the ESS/CI will again provide travel support to student presenters at this year's Combustion Symposium in Warsaw. We anticipate making awards of up to \$1,500 to ESS/CI student presenters of accepted papers at the Symposium (1 honorarium per student, 1 per paper). The presenter must be an author of an accepted paper (not a work-in-progress poster) and must be a current degree candidate at a college or university in the Eastern States Section at the time of the 34th Symposium. Please note that the size of the individual award may be adjusted depending on the number of applications within our allocated budget.

Please send the following information to Harsha Chelliah ([hkc3w@virginia.edu](mailto:hkc3w@virginia.edu)) by July 1 so we can assemble our final budget.

Paper number:

Student presenter's name:

Degree and expected completion date:

Advisor's name:

Institution:
